There'll Always  
Be Apprentices in  
Trade & Industry

Has the apprenticeship requirement for beginners vanished in trade and industry? You would think so from the approaches some school graduates are making in their search for jobs in 1954.

Carolyn P. Green, employment consultant of the New York State Employment Service, is quoted by one of our trade bulletins as saying:

"Young people, like all of us, show a certain inertia in adjusting their thinking and emotional attitudes to a changing economic world." As an example, the bulletin continues, she told of a young man who came into the office asking for a job at \$1.75 an hour. After consulting and testing, the applicant decided he would like to find work in a machine shop, but he was unwilling to accept an apprenticeship opening. The training was too long and the salary too small.

This job applicant had heard, of course, about the search for manpower and the disregard for special knowledge or skill during the war years—but the significance of the nation's gradual return to normal economy had entirely escaped him.

Not even a war can repeal the apprenticeship requirement permanently for the young person expecting to enter—and stay in—private industry or trade.

Private enterprise asks of the individual that he produce one of three things: Money as an investor, or experience, or genius, as a worker. And the greatest of these is experience.

Money may be lost. Genius may prove unrealistic in competition with the everyday world.

But for the person who has done his apprenticeship, studied his particular line of work, and stayed with it faithfully, there is a definite reward here in our United States.

U. S. Crews Are Leaving Indochina

By JOHN SCALI

WASHINGTON (AP) — The United States has started to withdraw some 200 Air Force technicians rushed to Indochina to help maintain French warplanes nearly three months ago.

The Defense Department, however, is reported considering allowing some American servicemen to volunteer to assist French ground crews in servicing planes blasting away at Communist-led rebel forces near Hanoi.

Diplomatic officials who reported this today said the evacuation of American Air Force personnel in no way should be regarded as a lessening of American interest in the future of Red-threatened Indochina.

The withdrawal, they emphasized, is being carried out in accordance with pledges to Congress that the 200 technicians sent to Indochina last March would be pulled out by June 12. A substantial number, they said, already have been returned to U. S. bases in the Far East.

Bidault Plans Calls for Part by Neutrals

By EDDY GILMORE

GENEVA (AP) — French Foreign Minister Georges Bidault, was reported today to propose to the Indochina peace conference today a plan for Asian neutrals to play the dominant role in supervising the Indochina cease-fire.

It was understood to have the support of the United States and Britain.

The U. S. delegation at Geneva has two views on how the cease-fire should be policed:

1. That a country within the Soviet orbit cannot be a neutral, and therefore cannot serve on any supervisory commission.

2. Insofar as possible, the United States would like to see Asian nations policing their own backyards.

India, Pakistan, Ceylon, Indonesia and Burma were reported under consideration for the supervising job.

The U. S. position on other questions before the Geneva conference was described in authoritative quarters as follows:

Korea — The U. S. feels that the Communist and non-Communist points of view on United Nations supervision are reconcilable and there is no chance for a settlement.

## Future Increase in Water Rates Possibility

What appeared to be a "50-50" meeting of Hope City Council last night turned into probably bad news for water customers in the future.

Right at the close of the meeting letters were read from Conway and Jonesboro asking Hope's water rate for comparison. In the discussion it developed that actually the electrical plant bailed the water system out of the red every month.

This was affirmed by Clyde Zimmler, plant manager, who described Hope's water rate as one of the cheapest in Arkansas. However, the water and electrical collection systems are combined and will have to be separated to tell just how the water system is doing. This cannot be done until the next city audit, a year away.

After that it was the general opinion of the council that water rates would have to be revised upwards.

A minor battle developed over the hiring of additional help to work during vacations at the Fire Department. Alderman B. L. Rettig insisted this was not necessary as the Fire Department already had two more men than last year. Main guns favoring the hiring of an extra man were Fred Johnson and Charles Taylor who pointed to Hope's fire insurance rating as being jeopardized if a sudden inspection revealed a regular was on vacation without replacement.

Mr. Rettig made it very plain he thought the whole plan was merely to hire a baseball player to which he had no objection if the employee was qualified but he thought it was unnecessary to hire anybody.

During the discussion it developed that the Water and Light plant has hired Gordon Beasley to help during vacations, a job which he held last year and his work drew praise from Manager Zimm. A third man has been hired by the street department and Mayor Wilson pointedly declared he wasn't a baseball player.

By a 7 to 1 vote the council hired Reader Huddleston to help out at the Fire Station.

A lengthy discussion on the sewer disposal situation on Ada street resulted in ordering the city engineer, C. O. Thomas to survey the area to see if a possible solution can be worked out.

The council also received a request from Improvement District 14 to dissolve the district which was organized in 1949 as it has been.

## Senate Gets House Passed SS Measure

WASHINGTON (AP) — Cleared overwhelmingly by the House, a bill wrapping up most of President Eisenhower's program for broadening the social security system, headed today for the Senate where it may be in for some tailoring.

The House passed the bill yesterday by a 355-8 roll call vote and in just the form recommended by the House Ways and Means Committee.

Sen. Millikin (R-Colo.), chairman of the Senate Finance Committee which now gets to handle the bill, said the House measure appeared to be "generally acceptable."

But some senators reportedly want to provide large benefits and to widen to \$6,000 the annual wage base on which the social security taxes are levied. The base is now \$3,600. Under the House bill it would be increased to \$4,200.

There also is said to be Senate sentiment for direct payments to eligible workers who become disabled before retirement.

And strong sentiment is reported for inclusion of physicians, many of whom were understood to have written to their congressmen urging such action despite the American Medical Association's stand against social security coverage for doctors.

## Wets Win in Pulaski Option Vote

LITTLE ROCK (AP) — The continued sale of beer and liquor was approved 288-254, by residents of Fourche Township (Pulaski County) yesterday.

Gray Township, also in Pulaski County, was to have held a similar election yesterday but it was postponed when the election petition was questioned. Another Pulaski township, Union, voted dry last Sept. 1.

## Family Picnic Plans Are Completed

Final plans and details have been worked out for the functions during Family Picnic Week.

It is yet indefinite whether the Swimming Exhibition Team of Texas State College for Women at Denton, Texas, will be present for the Monday Night Water Show.

The definite part of the evenings activities includes free swimming from 5 p. m. to 8 p. m., with some sort of water show scheduled at 8 o'clock. Hendrix Spraggins will be in charge of the water show at the Municipal Pool Monday Evening, June 7, at 8 p. m.

In further keeping with the activities of Family Picnic Week, Tuesday night will be the official opening for the Pony League. The game is scheduled for 6 p. m. in Legion Park between the Hope Beverage Team and the Hope Auto Team.

At 8:15 p. m. in Legion Park, the Hope Legionnaires will formally inaugurate with the Little Valley League with Nashville as an opponent for the occasion.

It is expected that Mayor Wilson will be on hand to toss in the first ball for the formal opening.

## Legion Convention Meets Here Sunday

Hope will be host June 6 to the 12th District of the American Legion, W. H. Yarbrough, commander, has announced. The meeting will convene at 2 p. m. Legion Hall. This is an annual business convention of the district.

## Marine Ace Draws Nomination

STOUX FALLS, S. D. (AP) — Joe Foss, ace Marine flyer of World War II, easily won the South Dakota Republican gubernatorial nomination in primary election voting yesterday.

Ed C. Martin, Chamberlain rancher, won the Democratic nomination for governor.

## Oppenheimer Asks Action of Atomic Group

WASHINGTON (AP) — The Atomic Energy Commission had before it today Dr. J. Robert Oppenheimer's plea for quick action on a special board's split recommendation to bar him from the atomic secrets he helped unfold.

The three-man security board set up by the commission found, after six weeks of secret hearings and deliberation, that the 50-year-old "Oppy" is a "loyal citizen" — but too much of a security risk to get back the cleared for secret status he lost last Dec. 23.

As disclosed yesterday by Oppenheimer's attorneys, the special board ruled 21 that the noted physicist and atomic pioneer had contributed to delaying a "concealed" start on hydrogen bomb development and had associated with Communists for years.

In a minority opinion, Dr. Ward V. Evans, chemistry professor at Loyola University of Chicago, said of Oppenheimer:

"He did not hinder development of the H-bomb and there is absolutely nothing in the testimony to show that he did."

The Oppenheimer attorneys, headed by Lloyd K. Garrison, said in a letter AEC. Man General agent K. D. Nichols that allegations against the majority were old hat charges which the commission had thrown out seven years ago.

They asked, on Oppenheimer's behalf, that the customary review by the commission's personnel security review board be waived. Instead, they asked the commission itself to take the case "under immediate consideration."

## Sheridan Angry Over Board's Action

SHERIDAN (AP) — About 300 angry patrons of the Sheridan School District voted last night at a mass meeting here to retain racial segregation in their schools after a speaker hinted that the U. S. Supreme Court is infiltrated with Communists.

J. H. (Pete) Duncan, a candidate for state representative from Grant County, told the meeting, "The Communists are dictating the policies of the United States."

"I am wondering," he said, "if the Supreme Court justices are not Communist-infiltrated and if maybe Sen. Joseph R. McCarthy should not investigate the Supreme Court."

The meeting was called to protest the re-routing of school buses by School Supt. A. R. McKenzie and the School Board. The patrons complained that they weren't consulted in the changes.

But the session quickly became a protest movement against the Supreme Court's recent decision that racial segregation in public schools is unconstitutional.

A motion by Virge Ashcraft that the school district "leave the Negro situation like it has always been until the Supreme Court forces us to do otherwise" was adopted amid applause.

Only a few hands showed in dissent.

Duncan told his audience that, "I have worked out a plan to keep segregation. I have sent the plan to the Southern governors and only one wrote back that he didn't want it."

Duncan, who didn't say how many of the governors approved his plan, added: "The plan would be to put the Negro children in separate rooms, make them eat at separate tables and use separate toilets."

The day following the Supreme Court's decision, officials of the Sheridan schools voted to end segregation in the schools beginning at the next school term.

But a quick protest from residents of the town forced the board to reverse its decision.

Last night, the meeting authorized a committee of citizens to circulate petitions asked for the resignation of board members.

One other Arkansas city, Fayetteville, has voluntarily ended segregation and will integrate its system next fall. So far, there's been no protest from school patrons there.

## McCarthy Says Reds in CIA Under Probe

By RAYMOND LAHR and HERBERT FOSTER

WASHINGTON (UP) — Sen. Joseph R. McCarthy said today that his subcommittee is studying Communist infiltration of the Central Intelligence Agency.

The Wisconsin senator said the alleged Red infiltration of the super-secret CIA is "much more serious" than the subversion he claimed he found last fall at Fort Monmouth, N. J.

McCarthy did not otherwise elaborate his charge against the CIA. But he said he had discussed the situation with members of his Senate investigating subcommittee along with alleged "Communist infiltration in hydrogen and atomic bomb plants."

His remarks came near the end of the morning session of public hearings on the Army-McCarthy dispute, which were in their 25th day. Roy M. Cohn was the witness.

McCarthy's was the first announcement that the CIA was being investigated, although there had been oblique hints about such an inquiry earlier in the Army-McCarthy hearings.

Sen. Henry M. Jackson (D-Wash.) had asked why alleged espionage at Fort Monmouth's secret radar laboratories was not investigated sooner. He said he thought the delay was "pretty serious."

McCarthy said, "We have a much more serious situation right now — Communist infiltration in the CIA."

Jackson said he wanted all the information the subcommittee has about that, and also about the alleged subversion in H-bomb and A-bomb plants mentioned by McCarthy.

## Nevada Negro Sentenced for Slaying

PRESCOTT, (AP) — A young Negro farm worker who shot down three members of his wife's family after an early morning quarrel near here was convicted today of first degree murder.

The Nevada County Circuit Court jury which convicted Dixie Guley fixed his punishment at life imprisonment.

Guley's attorneys had based their case on a plea of temporary insanity.

The young Negro was found guilty of the murder of his sister-in-law, Charlene Mae Purifoy. Murder charges against him in the rifle slaying of his father-in-law, Buck Purifoy, and a brother-in-law, were continued.

Guley's wife and by other members of her family were wounded in the shooting on the Purifoy farm.

The defense indicated that it would appeal Guley's conviction to the Arkansas Supreme Court.

## INJURIES FATAL

BATESVILLE, (UP) I. P. Osborne, 88, died early today in a Newport hospital of injuries received May 28 when he was struck by a car in the Union Hill community, 17 miles southeast of here.

Sheriff Burton Arnold said that Osborne was hit by a car driven by Aubrey Thompson of Marian, Ind., as he walked along a road with a companion.

Surviving are his wife, two sons and two daughters.

## Tornado Warnings in North Arkansas

LITTLE ROCK (AP) — The U. S. Weather Bureau here said today that "isolated tornadoes" are expected in an area of Southern Missouri today.

In a severe weather forecast, the bureau said: "Locally severe thunderstorms are expected from 11 a. m. until 3 p. m. (EST) along and 150 miles southeast of a line from 30 miles north of Joplin, Mo., to Worthington, Iowa."

"Isolated tornadoes are expected in the area along and 50 miles either side of a line from Columbia, Mo., to 30 miles east of St. Louis between 11 a. m. and 3 p. m. (CST)."

The severe weather forecast did not extend into Arkansas, said the bureau, adding, however, that severe thunderstorms are expected at Elipin in extreme north Arkansas.

## Negroes Turned Away by College at Texarkana

TEXARKANA, Tex. (AP) — A group of Negro students were turned away today when they attempted to enroll at Texarkana College here.

Dean W. P. Akin explained that the Negroes were refused because he had received instructions from the State Education Commission of Texas to plan for continued segregation in Texas public schools for the 1954-55 school year.

Akin said there were 12 or 14 Negroes in the group.

The Negroes were graduates of Texarkana's two Negro high schools — Washington High School on the Arkansas side of the line and Dunbar High School on the Texas side.

John J. Jones, a Texarkana Negro teacher and Negro spokesman, said the group said the Negroes had no plans for further action.

The group's effort was the first move at Texarkana by Negroes to enroll in white schools, since the U. S. Supreme Court ruled against public school segregation two weeks ago.

## Blast Kills Two Civilians at Navy Base

PORTSMOUTH, N. H. (AP) — A flash explosion early today killed two civilian workmen aboard the Navy submarine Sirago as she lay in drydock at the Portsmouth Naval Shipyard.

A sailor on fire which duty nearby was burned by the blast, but his condition was described as "not critical."

Six other civilians working on the submarine not injured.

Capt. Robert E. Cronin, commander of the shipyard, said the blast was in the submarine's main ballast tank, where the two victims were spraying a plastic substance.

He said the submarine did not appear heavily damaged. An investigation was ordered.

The Navy withheld the names of the victims.

The blast was the second to strike a naval vessel in one week. Last Wednesday an explosion aboard the carrier Bennington off Quonset Point, R. I., killed 100 men.

One of the workmen killed on the Sirago was inside the ballast tank and the other was working on the tank from the outside.

## Ike Defends Fight Against Communism

WASHINGTON (AP) — President Eisenhower said today his administration has an impressive list of accomplishments in fighting communism and subversion.

The President made the statement at his news conference after virtually barring questions on the sharp controversy between members of his administration and Sen. McCarthy (R-Wis.).

One newsmen, nevertheless, asked the President whether he feels that McCarthy is hurting the administration's legislative program.

A look of sharp annoyance came over the President's face and after a pause he turned away from the questioner, and snatched out that he was ready for the next question.

In ruling out questions about McCarthy-administration controversy, the President said that now on he has no more to say to give to get his legislative program enacted with the administration.

And in declaring with the administration that the Federal Bureau of Investigation is doing a "good job" in fighting communists and subversion, Eisenhower made public a report from the department listing what he called the accomplishments of the administration during its first 18 months in office.

In a prepared statement, Eisenhower said the constant surveillance of Communists in the country is a 24-hour seven-day-a-week job. It is a job, he said, carried out by the appropriate federal agencies in accordance with the process of law. It is being carried out quietly and relentlessly and he who best knows its effectiveness are the Communists themselves.

## French Planes Destroy Huge Red Depot

By LOUIS GILBERT

HANOI, Indochina (UP) — French warplanes today destroyed a huge Communist underground base only 12 miles southeast of Hanoi, with 1,000-pound bombs blowing it sky high in columns of thick smoke and flame.

The base concealed by a sprawling village of bamboo huts, one of the chief Communist jumping off points for an attack on Hanoi, said the planes delivered their knockout punch in pre-dawn darkness.

Presence of the base and the "massive" measures taken to eradicate showed the strength of the Viet Minh rebels within delta itself today, said a spokesman.

The biggest ever attack against rebel positions within the delta, which is reported to be under French control, was said to have been a defense post 10 miles farther out, on the 40-mile-long railroad, an highway linking Hanoi with its port at Haiphong. Military sources predicted a major effort to recapture it.

## Conditions for Growing Are Favorable

LITTLE ROCK (UP) — Growing conditions in Arkansas for the week ended last night were reported to be favorable.

The best since to be favorable and the weekly weather and Outlook Bulletin said today that the few days of warm weather is helpful to crops.

Soil moisture is adequate, excessive over the southern part of the state, and in some spots over the northern half except in a few local areas, which need rain.

The conditions are generally materially during the week, cotton that is in the seedling stage, and the wheat crop is in good shape.

Trucks, buses and airplanes are being used to get the crops in the field. The weather is generally favorable for the crops.

## Birmingham Moves to Keep Segregation

BIRMINGHAM, Ala. (AP) — Birmingham voters today rejected a measure to keep segregation in the city, but the city commission will continue to fight for it.

The measure, which would have required the city to maintain segregation in public schools and public places, was defeated by a vote of 181 to 170 in the city's 170 precincts.

The measure was proposed by the city commission, which is made up of five members, three of whom are white and two are Negro.

## Output of Crude Oil Declines

OKLAHOMA — The nation's average crude oil and condensate production was reported to have declined 12,850 barrels a day last week, according to the Oklahoma Petroleum Council.

The weekly average output was 1,537,500 barrels, compared with 1,550,350 barrels a week earlier.

The decline was attributed to a drop in production in Oklahoma, which produced 1,000,000 barrels a week, down from 1,012,800 barrels a week earlier.

## Moody Sentenced for Tax Evasion

MEMPHIS (AP) — Former ice manufacturer, Tati Moody, was convicted of evading federal income taxes and sentenced to five years in prison and a \$10,000 fine.

The conviction was announced by U.S. District Judge Marion S. Egan.

Moody, 44, was charged with evading taxes for the years 1944 and 1945.

## Deville in Fire

DELVILLE, Mo. (AP) — Ethel Bond, 40, died here yesterday in a fire that destroyed her home.

The fire broke out in the early morning hours.

Link slapped at a fly that was walking on the counter. "The only way to get by with driving a rod is to buy the factory rods that cost five thousand bucks. Look at the way they've hopped up Caddys and Lincolns and Chryslers and other cars. The same way we do it. Only when we do it, it's some kind of crime, but when the factory builds them it's automotive progress."

"Yeah," Ricky agreed indignantly. "Old Gus Vorkle was shooting off his mouth in the barbershop yesterday about how fast his new car could go. And he was raising Cain about us speeding."

"It all depends," Jerry said. "Whose big fat ox is going?"

"Boy, I feel like going somebody's ox tonight," Ricky said. "What do you say, guys? How about a run to Des Moines?"

"I'm with it," Link said. "Let's go."

They dismounted from the leather-topped stools and went out to their cars. They stopped for a moment on the sidewalk, breathing in the disturbing fragrance of the country night. The sweetness of the air made the darkened town seem unbearable.

"Keep your girls at home," Ricky said to the darkness. "See if we care."

Slowly, almost quietly, Ricky led the reconnaissance through downtown Des Moines. Ricky's alert eyes picked out the lowered and hunched outlines of other rods parked along the streets, or moving along them. Most of the rods were from out of town.

As he moved past each parked car, or those coming toward him, he gave each one a quick going-over and received one in return.

At each passing there was a moment when their eyes locked, and they gave each other the cold hard stare, sizing each other up, always as potential antagonists, never as potential friends. In that momentary exchange there was a dare as well as an appraisal and then they broke contact — for the moment.

Retained was a quick estimate of the other car, and from that, some estimate of the driver. What might be under that other hood? The boys whose engines were a hiss of chrome speed equipment proudly came out with the hoods off. They were the elite. They could ignore challenges from the slightly modified mills that powered the average rod. Ricky looked for rods that he hoped were in his class, where the power was even.

The first drag came up suddenly, the way they usually started. A black coupe, almost a twin of his own, that he had seen parked on Seventh Street.

Ricky stopped for the red light at Fourth and Grand, and the other coupe idled up beside him, inches away, but to him Ricky looked over, trying to appear careless. There were two boys in the other coupe. When he looked, the driver raced the motor for a moment. Ricky touched his gas pedal. Then they both watched the light.

Ricky was in low, with his clutch in. The moment the light changed (give or take a fraction of a second), Ricky's clutch was coming back and his gas foot was moving toward the floor.

The little coupe shot forward with a tremendous roar, rear wheels screeching. The other coupe moved with him, mashing his wheels turn for turn. Wide open in low, the two little cars rammed forward until the red light at Fifth made them slam to a quick stop that made the cars nose down toward the pavement.

A green light and they were off again, wheels racing madly in a bid to get to the top of the

## Editor to Make Canadian Trip

MAGNOLIA, W. R. (Bill) Whitehead, editor and general manager of The Dall Banner-News, has been named as one of twenty-eight U. S. Newsmen to make a ten-day tour of Canada.

The tour, which begins at Windsor, Ontario, and terminates at Niagara Falls, runs from June 8th to 18th. The group, representing state press associations, will be the guest of the Ontario Department of Travel and Publicity. Whitehead is president of the Arkansas Press Association.

And he knew the best thing to do. He assumed his meekest expression.

The cop held out his hand and Ricky handed over his license. The cop examined it and handed it back. Then he flashed his light at the steering column, so he could read the registration card. He didn't say a word, and Ricky wisely held his tongue.

The policeman pulled a ticket pad from his pocket and let it rest on Ricky's window. Ricky looked at it, then at the policeman. He was a big guy, not fat, but big. He looked hard, but not mean.

"You trying to earn one of these, son?"

"No, sir."

The policeman's words hadn't been hostile, but his voice wasn't friendly.

"Your license says you're from Delville. Do you drive like that in Delville?"

## Patterson Leads in Alabama Vote

BIRMINGHAM, Ala. (AP) — Forster State Sen. Albert L. Patterson held a steady lead in the race for attorney general early today, although Gov. nominee James E. Folsom had endorsed his opponent.

Victory of another candidate backed by Folsom was conceded by his rival, and two others who received the former governor's blessing apparently had won nomination in the Alabama Democratic runoff primary yesterday.

With returns in from 2,302 of Alabama's 2,771 boxes, Patterson led with 104,131 votes to 156,221 for Lee Porter. Patterson is a Phenix City attorney; Porter, a Gadsden lawyer.

Nomination of James J. Mayfield of Tuscaloosa for State Supreme Court justice was conceded by incumbent Justice Preston Clayton to the post.

The count in other races: Secretary of State (2,302 boxes) — Mary Texas Hurt, 202,050; Ed McBryde, 116,513.

Superintendent of education (2,302 boxes) — A. R. Meadows, 178,477; Culp, 151,001.

Supreme Court (2,258 boxes) — James J. Mayfield, 104,389; Preston Clayton, 146,058.

Folsom had endorsed Miss Hurt, Mayfield and Meadows.

George Huddleston Jr. was nominated for U.S. representative from the 8th (Birmingham) Congressional District. Huddleston, son of a former congressman, was conceded the victory by his opponent, Arthur Albright, former postmaster here.

Returns from 232 of 293 boxes gave Huddleston 23,616 votes and Albright 14,335.

## Man Held Cleared in Canyon Slaying

BOULDER, Colo. (AP) — Sheriff Arthur T. Everson says a detailed report from police at Van Buren, Ark., "all but eliminates" Marvin S. Boyd in the Boulder Canyon murder mystery.

Boyd, 32, was quoted by Van Buren Police Chief W. J. Russell as saying that a young woman, whose body was found in the canyon, was his wife, and that she was Jeanette Harris of Harrisburg, Pa. Boyd also claimed he is a former mental patient.

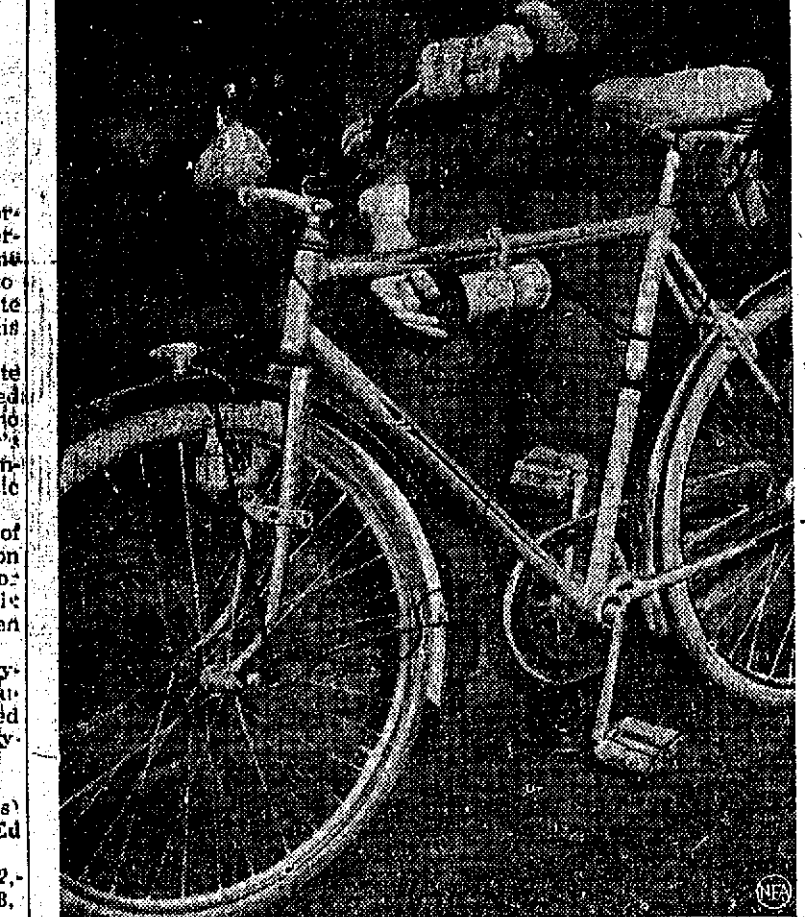

Everson said yesterday he has talked with Chief Russell by telephone and doubts anything further can be done about the slaying.

The sheriff quoted the police chief as saying that Boyd "is unusually anxious to deny that he has been in Colorado. He wants to know why the officers are interested in Colorado although he freely answers questions about other states."

## Eastern Arkansas Attorney Named

LITTLE ROCK (AP) — Julia C. Acchione of Little Rock has been appointed assistant district attorney for the eastern district of Arkansas pending final approval by the Justice Department.

District Attorney O. O. Cobb said yesterday that the approval is expected upon completion of routine checks.

## Pine Bluff Likely to Keep Franchise

GREENVILLE, Miss. (AP) — Cotton States League President Emmett Hartly said today he did not believe Pine Bluff will have to surrender its league franchise.

Pine Bluff was reported having attendance troubles, and might have to give up its franchise in the Class C six-team baseball league.

"I don't believe the situation has reached a point that serious," Hartly said. "Part of Pine Bluff's attendance trouble can be traced to several rainouts and unseasonal cold weather."

The club's board of directors voted Monday night to disband unless sufficient capital could be raised or attendance increased to see the team through the remainder of the season.

Hartly said he thought Pine Bluff could weather the difficulty and remain in the league.

However, he said the league had considered replacements should Pine Bluff have to drop out. He emphasized, however, the league would not disband under any condition.

Hartly said Vicksburg, Miss., was considered the prime replacement should Pine Bluff forfeit its franchise. He said Vicksburg, a former league member, had expressed a desire to return to the league and is ideally situated geographically.

Fort Smith, Ark., and Texarkana also were under consideration, but appeared remote because of their distances from other league members.

## Ford Plan Goes to Other Schools

LITTLE ROCK (AP) — An additional \$100,000 will be spent on the Ford Foundation's experimental program for training teachers in Arkansas during the next school year.

Dr. Guy Curry, coordinator of the experiment, said yesterday that the Foundation plans to spend \$998,856 in Arkansas or the 1954-55 school term, as compared to about \$900,000 or the 1953-54 school term. He said 30 schools will participate in the program, an increase of 17 over the number taking part last year.

The program calls for teacher trainees with college degrees to spend a year's internship in public schools following graduation from college.

Miss Helen Atkins  
is Bride of Lt. Downs

In an impressive double ring ceremony, Miss Helen Atkins, daughter of Mr. and Mrs. K. V. Atkins, Hope, became the bride of Lt. Charles E. Downs, son of Mr. and Mrs. E. D. Downs of Bodcaw, Arkansas, Sunday, May 30 at 3 p. m. in the First Methodist Church of Hope.

The Rev. Virgil Keeley officiated before an altar decorated with white flowers and a selection of musical music preceded the ceremony furnished by Mrs. B. C. Hayatt, organist. Among the selections were "Romance," by Rubinstein, "Schubert's Serenade" and "To a Wild Rose."

The bride, given in marriage by her father, wore a wedding gown of white net over tulle, fashioned with a fitted bodice of white lace and a bouffant ballerina length skirt. Over the bodice she wore a fitted jacket of white lace with elbow length sleeves and high pointed collars. The jacket was open at the throat to reveal a single strand of pearls, a gift of the groom and was buttoned to the waist with lace covered buttons. Her finger tip veil of illusion cascaded from a small white hat. White lace mitts and white beaded satin pumps completed her ensemble. Her bouquet was a cascade of white gladioli.

The matron of honor, Mrs. Earl Downs, cousin of the bride, and the bridesmaids, Mrs. Kennie Atkins, Jr., sister-in-law of the bride, and Mrs. Waylon Kirkpatrick, sister of the groom, wore identical dresses of white net over tulle, designed with a fitted bodice matching stoles and ballerina length skirts. They wore headpieces of light green carnations and carried cascade bouquets of carnations. Little misses Suzanne and Tina Turner, flower girls, carried baskets of yellow marigolds.

Mrs. K. V. Atkins, mother of the bride, and Mrs. E. D. Downs, mother of the groom, wore white gardenia corsages.

Earl Downs served his brother as best man, Phinias Herring and Waylon Kirkpatrick served as groomsmen.

Following the ceremony, a reception was held in the home of the bride's aunt, Mrs. Ernest E. Turner, which was decorated with white gladioli and shasta daisies.

Mr. and Mrs. Earl Downs welcomed the guests and introduced

them to the receiving line. Mrs. Harold Higginson, Jr. presided at the guest book. Mrs. K. V. Atkins, Jr. served the wedding cake and Mrs. Waylon Kirkpatrick presided at the punch bowl.

Mr. and Mrs. Downs left for a wedding trip to the Ozarks after the bride had changed to a green and white striped tulle frock. Her accessories were white and she wore the orchids from her bouquet.

Lt. Downs has orders for overseas duty and prior to his departure he and Mrs. Downs will make their home in Hope.

W. S. C. S. Circle 5  
Meets

W. S. C. S. Circle 5 of the First Methodist Church met Monday, May 31, at 7:30 p. m. in the Jett B. Graves class room with Mesdames Cecil Atchley, Ralph Lehman, and John Greene as hostesses.

Chairs were arranged in a semi-circle around the worship center which was beautiful. The worship table held a large gold cross and in front of it was a candelabra which held four white tapers inside a mass arrangement of white gardenias. Hanging on the wall back of the table was a picture of Christ and on either side of the room was placed a tall basket of white stock while a rear table held an arrangement of red verbenas.

Mrs. Claude Tillery, chairman, opened the meeting with the group singing "Must Jesus Bear the Cross Alone," and sentence prayers. She presided over the business session and heard reports from the various committee chairmen. Mrs. Tillery expressed her appreciation to all the members for splendid co-operation and work done this year and appointed the following committees for the new year. Christian Social Relations: Mrs. Fred Johnson and Mrs. Fred Glanton; Membership: Mrs. John Greene; Missionary Education: Mrs. Lloyd Guerin; Status of Women: Mrs. Wayne Russell; Publicity: Mrs. Dexter Bailey; Hostesses: Mrs. J. W. Franks; Literature and Communion: Mrs. Virgil Keeley; Absentee: Mesdames Sam Huckabee, Steve Bader, John Pierce, and Misses Mary Anita Lasher, and Pauline Tyner; Visitation: Mesdames Jud Martindale, C. V. Nunn Jr., and Homer Jones; Telephone: Mesdames Ernest Turner, Hinton Davis, Bill Wray, John Wilson Jr., Winston Monts, Milton Eason, and Cecil Atchley.

Announcement was made of the sub-district officers training school to be held at the Rev. Virgil Keeley Church Thursday, June 3, at 1:30 p. m. and the regular joint meeting of all circles June 14, at 4 p. m.

Mrs. Steve Bader gave a most inspiring devotion on the use of our talents closing with a poem and Mrs. Harrell Hall accompanied by Mrs. John Yocum, sang most beautifully the song, "Others."

Mrs. Dexter Bailey and Mrs. John Wilson Jr., presented the pledge service in a very impressive manner at which time the members brought and laid their pledge cards on the worship table remaining for prayer by Mrs. Bailey. During the pledge service soft music was played by Mrs. Yocum and only the candles and a soft light was burning.

Following the pledge service Mrs. James McLarty Jr., a former member of circle five spoke on wearers of the Shield, the Gold Cross, and presented Life Memberships and gold pins to Mesdames Sam Strong, Steve Bader, Clifton Ellis, Fred Glanton, LaGrone Williams and Edward Aslin, for their faithful work

Here, the ship's beauty specialist is showing a passenger (left) how to protect her skin with a nourishing cream. The passenger protects her hands by applying (center) a lanolin-rich preparation at least twice a day. It's also wise to use a body lotion after bathing. Lots of brushing and frequent settings will help to keep your hairdo under control. Following the advice of the ship's beautician, our vacationer uses a scalp conditioner daily and (right) locks in her set with a liquid net. ## DOROTHY DIX Once Smitten, Now Wary

Dear Miss Dix: Five years ago, when I was 35, I fell in love with a married woman quite a bit younger. She didn't love me, and had no intention of divorcing her husband, so I set about getting over my infatuation — and, thankfully, I succeeded.

Now I have met another girl, also married but planning a divorce, and while I am very fond of her I don't love her the way I did the other woman. She is trying to press me into a promise of marriage, after her divorce, of course, assuring me that love will come later. According to her, understanding is more important than love. Do you think she's right?

**Artful Minx**  
Answer: She's a darn clever little minx. I'll say that for her. Getting one matrimonial prospect lined up while discarding another takes a lot of plotting and, from the effect her argument has had on you so far, she seems to be quite successful in her little machinations. My advice to you would be to run not walk — as fast as possible and as far as possible from her. She's a cunning opportunist and you may be sure that she will never be more faithful to you than she is to her husband right now. In fact, almost certainly the divorce is the product

of her promiscuous conduct.

Isn't there any place where you can find a nice, unattached girl for a friend? There's no profit or happiness in getting mixed up in someone else's matrimonial affairs — especially if they are already disturbed. The world is full of fine unmarried women who have reached their late twenties or early thirties and there's no doubt but that a bit of hunting on your part will find one. Even if the general idea of marriage doesn't appeal to you at the moment, you do seem to appreciate feminine company, but let it be the right sort of company.

Dear Miss Dix: I'm going with a boy a year younger than I am. He loves me, yet wants me to act exactly like one of his ex-girl friends. It's always, "Betty didn't do that; Betty did this etc." How can I make him stop telling me this?

**GINGER**  
Answer: Come right to the point. Tell him you're not Betty, that you have no intentions of trying to be like her that you're quite content with your own personality and if he doesn't like it, the thing to do is go back to Betty. Probably, he's still carrying a torch for his ex-girl friend. Be careful that your heart isn't hurt when he turns back to her, as he may. But wouldn't you be better off with a boy who likes Ginger just as she is?

Dear Miss Dix: My youngest daughter, who is 24 has separated from her husband and is back with me. Her conduct is breaking my heart. She was always a very good girl, but now she is running around staying out until all hours of the night and she won't listen to my advice.

**OLGA T.**  
Answer: Could you contact the girl's husband and try to arrange a reconciliation? If you can't perhaps your minister, a lawyer, or some interested friend would undertake the job. The girl is just covering up her own frustration with a steady round of good times. This is useless but apparently she's too young to realize it. She needs constructive therapy, not destructive larking. Another try at her marriage is strongly recommended.

Dear Miss Dix: I went with a boy for a year, then we broke up. He married someone else six months ago, but now he says he married her to spite me. He doesn't love her, wants to get a divorce and marry me. We love each other. What shall I do?

**MARY M.**  
Answer: First of all, the man doesn't belong to you and you have no right in the picture at all. His reason for marrying the girl doesn't

## Wayne Glad for a Little Relief

By BOB THOMAS

**HOLLYWOOD** (P) "I'm glad the heat is on you for a change, and not me," John Wayne laughed as he saw a reporter descend on Susan Hayward.

The two stars are co-starring in "The Conqueror," and Wayne was wryly observing one of the phenomena of Hollywood. Sometimes a star becomes hot news. Then he or she becomes the focus of attention for Hollywood correspondents.

Last year it was Wayne, who was embroiled in a divorce suit with his wife Cheryl. Now it is Miss Hayward, who is fighting litigation of almost equal intensity involving her husband Jess Barker.

"The divorce trial is set for June 14," Miss Hayward replied in answer to my query. "I will fly down from the location in Utah."

Will it be a one-day affair? "Oh no. The calendar is set for four days. Everything is going to be brought out. It's too bad. This whole thing could have been resolved very easily with a settlement. But it's too late for that now."

Miss Hayward indicates she will fight the affair to what may well be the bitter end. She is taking her twin sons to the location with her and says she will refuse to allow them to be brought into open court to watch the proceedings.

I didn't let Wayne escape as easily as he hoped. Long an anti-Communist, he was talking with men who were preparing a blast against Red activities in Latin America. When he finished with this business, I asked him about his beef with Howard Hughes, for whom he is working at present.

"There's no beef right now," he replied. "But I'll admit I was pretty put out. I set aside three whole months for my commitment to RKO in 1952 and another three months in 1953. Neither of those periods were used."

Also have been sitting and waiting for this picture to start since Jan. 4 of this year. Now it won't finish until midsummer. I could have been making two pictures in that time.

"That doesn't sound like much, but I have tax obligations to meet. I have committed myself to earning a certain amount. When I don't I'm in trouble. When you're in the \$400,000 a year class and earn only \$200,000, that can really put you in a hole."

"We worked out a settlement so that Hughes will loan me the money to meet my tax commitments. Then, when the picture is over and we can see how much have lost, we can get together and make a settlement."

you — well, Uncle Samuel does. You may think that forgotten course in the history of early Roman band instruments or a nodding acquaintance with Caesar's campaigns was a waste of classroom time.

"Perhaps so, perhaps not. The discipline of learning, however carelessly and lightly taken, however seriously accepted, does measure a reward in later life. At the very worst, the college graduates who were in the last World War never had to fight a hill in Europe that wasn't there when Caesar lived. Whatever you learned, however, you learned it. You will sometimes find a use for the exception of a very few number of colleges, which tradition-minded elders feel they must stamp the minds of their offspring with the average American university offers no more than a pleasant doorway to knowledge. ## Four Members of Family Die in Blaze

**POPLAR BLUFF, Mo. (P)**—Four members of a farm family burned to death and two others were burned, one seriously, in an explosion which destroyed their home near here early today.

Zasharian Bolen, 57, and three of his children, Jimmy 14, Mary, 12, and Allen, 5, were trapped in the flames which filled the four room frame house.

Bolen's 50-year-old wife, Gerlie, was burned critically and another child, Wayne, 10, was burned, cut and bruised on the arms.

Coroner Grover Greer said the only fire in the house had been in a refrigerator operated by bottled gas. He said there also was a gas stove but it had not been on for several hours. The explosion happened about 1 a. m.

Mrs. Bolen was brought to a hospital here after she had walked nearly a mile to a neighbor's home for help. Hospital attendants said she was suffering from third degree burns.

Her son, Wayne, said Mrs. Bolen awakened him and a sister, Presella, 8, and got them out of the house after the explosion; then she rushed back into the raging fire in an effort to save other members of the family. Wayne said he went in and got his mother after she was enveloped by flames.

Wayne said he kicked out a window and managed to get hold of one of the other members of the family — he didn't know who — but smoke and fire drove him back

and around the door the rest of your life. That's living!

It is highly unlikely, if you move boldly into a growing world, that 25 years from now you will have more than one or two close friends from the yearning days you are now leaving. It is highly unlikely that you will ever have in your life more than two close friends. Friends don't grow on clothes trees; nor are they born in easy times.

You are coming, full of the juice of youth, into the great cedar press of time and age. It will squeeze you, as it has millions of men before you.

Whether you come out of college with 10 million family dollars behind you, or just a boy owning fines to the college library, you'll be squeezed and hurt — arguing with a wife in Palm Beach, selling chemicals in Dubuque, peddling bonds in Wall Street, trying to cure somebody in Phoenix, or hoping to hold a bill in, well any country where they blow the bugle and set up a flag you live by.

Looking back across 25 years, Joe, I feel you've got one big advantage. There is a place in the world for you, and whatever you have learned, the rest of the world desperately needs it.

This crumbling dream is yours to put a foundation under. Yesterday you were the hope of tomorrow. Now you are the purpose of today.

Make a better world, Joe. It's worth the groan it takes. And one of those who would like to live in and enjoy it is,

Your friend,

## More Money Loafing Than Working

THOMAS WOOD is — How would you like to earn more money by loafing than working?

Wood, who is enjoying a profitable position in the movie business, is the star of the amazing TV series "Ramar" single.

In the past five months, I have made more money than I have by working steadily for years in the movies."

Wood's prosperity is attributed to the economics of syndicated TV films. A star can work for a period then "allow the films to go and bring in the loot. In the "Ramar" system, the films are successful beyond the backlot dreams. The single film is sold to 120 stations in the United States in many places, it brings in a larger audience ratings than any network shows.

Wood has earned his leisure. The handsome gent drew his attention in "The Hurricane" and he has been working steadily in films, largely of action-adventure type. But a few years ago, he struck a snag in his career.

"I was still working — I had a contract for three pictures a year," Wood said. "But I was loafing anywhere. It's no good. You don't think you're loafing in your career."

Wood's idea of doing a TV series came to him. At first, he was reluctant to give the security of a studio. The idea sounded exciting, so he gave it a chance.

Wood's backers took a chance too. They decided they wouldn't merely make a pilot film which is used in all TV series (hopefuls). They decided to make a series of prospective sponsors would be the first film is okay, but they scraped together \$252,000 and knocked out 12 films about the same time.

Wood finished his chore and in September, 1952, to entertain in Korea. In the two months he was gone, he kept wondering how the show would sell.

When he returned to the States, kids at the airport said, "Hey, there's Ramar!"

When I heard that, I knew we had a show, he said.

The show began selling all over the country. Hall went to work on a total of 82 chapters. The cost of a million dollars. By the time the first station, KTTV in Los Angeles, when he returned to the States, kids at the airport said, "Hey, there's Ramar!"

Father's Day gifts that get the biggest welcome reception are those that add to his wardrobe in a way he wouldn't think of doing for himself. Or, if he's gadget-minded, he'll be pleased with a gadget that's both fun and practical. For wear anywhere under the sun (left), the white polo shirt and washable rayon check walking shorts are ideal. Color slide viewer (upper center) folds to fit into Dad's pocket, allows him to show his favorite full-color film slides anytime, anywhere. Vacation kit (center)

packs easily for trips or can be stowed away in a desk. It's packaged in plastic envelope with transparent window, contains shaving lotion and deodorant. New barefoot sandal (lower center) has thick, lightweight crepe sole that protects feet from wet earth and hot rocks. It's in denim, is washable. Golf jacket (right) is 20 per cent wool, 80 per cent cotton, is lightweight but warm, has a nylon zipper. Contrasting ribbing at shoulders permits freedom of movement. It's shown here in gray with red.

## McCarthy in Challenge of Ike's Power

By JAMES MARLOW

WASHINGTON (AP) — Who's in charge around here?

Sen. McCarthy didn't ask the question. But he raised it by challenging President Eisenhower's authority to run the executive branch of the government as he thinks best.

McCarthy urged all federal employees — in spite of any Eisenhower order not to give out classified information to turn over to him any information they might have on graft, corruption, communism or treason.

This didn't just happen suddenly. McCarthy has been leading up to this, although there's no sign he planned it step by step.

Last Sept. 9 he showed newsmen 70 pages of a 75-page "restricted" Army intelligence pamphlet on Siberia. He described it as "clear-cut, all-out Communist propaganda."

This was a case of McCarthy deciding he knew better than the Army what should be kept secret and what revealed. There are laws against revealing secret information. The Army said he had violated them. Nothing happened.

During the Senate hearings on his fight with Army officials he produced a document on spying in the Army. It was a condensed version of a much longer one which FBI Chief J. Edgar Hoover had sent to the Army, marked confidential. Some unknown person had copied parts of the original and given them to McCarthy.

McCarthy proposed to make it public. Again, McCarthy was deciding what should be released to the public.

Atty. Gen. Brownell said it should not be divulged because national security was involved. McCarthy said: "No human... or any other directive which is designed not... for the security of this nation but to prevent embarrassment for those responsible for covering up Communists... will keep me from making a public disclosure of this information."

He said an Army officer had given him the document, but refused to reveal the man's name, although it would appear the man had violated the law by giving McCarthy the document. McCarthy assured all federal employees he'd keep their names in confidence if they gave him secrets.

When Sen. McClellan (D-Ark.) last week referred to this document, suggesting that McCarthy himself might be guilty of a crime in receiving it, McCarthy was nettled. He said:

"So far I am concerned I would like to notify those two million federal employees that I feel it is their duty to give us any information which they have about graft, corruption, communism, and that there is no loyalty to a superior officer which can tower above and beyond their loyalty to their country."

Since McCarthy excluded no one, it can be assumed he was telling the FBI agents to let him know as much as they told Hoover about the most secret investigations.

His sweeping statement can be interpreted as meaning McCarthy thrust no one in the government to protect the nation except, in the end, himself, and that the only way the country can be sure the government is being run right is if McCarthy has all the most secret information has all about it.

He did more than that. He was urging every government employee to decide for himself, in disobeying presidential secrecy orders, what good for the country and to tell McCarthy. The Senator said he was authorized to receive such information as chairman of a Senate committee which checks on government spending.

The White House promptly said McCarthy was trying to "usurp" the President's powers. One thing is certain: If federal employees carried out McCarthy's request in all cases, the President would have lost control. No official could trust any employee.

Government employees qualified to handle classified information are supposed to have been cleared as loyal by an FBI investigation. If McCarthy is not publicly known, it is not publicly known.

But McCarthy is asking for secret information, yet he would be the first to complain if a government employee, even though he pub-

Says Segregation to Stay in Mississippi

JACKSON, Miss. (AP)—Sen. James O. Eastland (D-Miss.) says Mississippi will continue to have segregation in public schools regardless of "the wishes of racial demagogues and trouble makers."

In a statement yesterday, Eastland said he didn't believe Mississippians would permit their children to attend mixed schools.

Eastland termed as "very ill-advised" the threats made by school segregation.

He was referring to a statement issued Sunday by the Mississippi Negro leaders to bring suits to end school segregation.

He proclaimed himself anti-Communist, was allowed to handle classified material without an FBI check.

## Vukovich's Pit Crew Deserves Slice of Cash

By DALE BURGESS

INDIANAPOLIS (AP)— Without taking any credit from a great driver in Bill Vukovich's second straight 500-mile auto race victory yesterday, the cold statistics show that his pit crew deserves a big chunk of cash when the purse is distributed tonight.

Jack McGrath, who holds the Indianapolis Motor Speedway qualifying record, set out to run off from the field like Vukovich did last year. He was screaming around the track at an almost impossible 140 miles an hour early in the contest.

Vukovich won and McGrath finished in third place behind hard-driving Jimmy Bryan of Phoenix. Vukovich was 1:09.59 ahead of Bryan and 1:57 ahead of McGrath. Vukovich had made two pit stops for fuel and tires and his crew got him back on the track with a total loss of 1:42 Bryan had to make three stops and lost 2:04 McGrath stopped three times and lost 3:30 including once when his engine stalled.

Frodo friends of the short, dark and untalkative Vukovich probably will contend, with considerable reason, that if Vukovich hadn't held a full lap lead over Bryan late in the race, he would have been pushing his fuel injector special even faster than his new record of 130.840 m.p.h. He certainly wasn't loafing after starting in 19th place.

Branch of the National Association for Advancement of Colored People. The group promised court action if anyone tried to evade the U. S. Supreme Court's ruling that outlawed segregation in public schools.
